Caring for you now and in the future

It's likely that at some stage you'll come to the point of thinking "what will happen in future years?"

One of the key benefits of CCA is that we offer automatic transfer to all of our higher care hostels and nursing homes when the time suits you, without additional bond payment. As such, further fees and waiting lists are avoided.

This provides our residents and families with confidence that when their health needs change, solutions for an easy transition are already in place.

*I have privacy yet there's
always activities to join if I wish. I came
into the village because if my health fails
there's automatic entry into the
CCA hostel or nursing home.*
